

COVER SHEET

Positions applied for	前端工程師
Candidate's name	黃知遠
Recent Employer	DE GAMES 夢幻互娛
Job Title	Senior Software Engineer

SKILL SET

React, Vue.js, AngularJS, Redux, TypeScript, CSS, HTML, Webpack, E2E testing (Cypress.io), Unit testing (Jest), Performance optimization, Event tracking, A/B Testing, CSS Preprocessor (SASS), CSS in JS (styled-components), RWD, AJAX, Flutter.

SUMMARY

- 精通 React、Vue.js 及 AngularJS 等主流前端框架。他擁有多項將老舊系統成功現代化的經驗，例如導入 TypeScript 與 React Hooks 進行重構、以 Webpack 及 Rollup 取代 Grunt，並用原生 JavaScript API 替換 jQuery，這不僅展現他深厚的技術底蘊，更凸顯他解決技術債、優化開發架構的能力。
- 具備豐富的網站性能優化專案，從減少依賴庫以縮小打包體積，到改善圖片延遲載入與動畫效能。
- 除了網頁前端，知遠更將技能拓展至跨平台桌面遊戲開發 (Flutter)，並熟悉自動化部署流程 (Steam, GCP)。此外，他的個人專案「學習歷程檔案系統」被超過 400 所學校採用。
- 溝通能力佳且具備團隊合作精神

EMPLOYMENT HISTORY

Senior Software Engineer @DE GAMES 夢幻互娛

2022-11 – Present

Responsibilities

- Rebuilding the System Request Tracker with Vue.js to Improve Team Task Tracking Efficiency.
- Design basic infrastructure templates for the front-end partner manufacturer websites.
- Collaborate with UI Designers to discuss a cross-site Design System, simplifying front-end style planning.
- Collaboratively develop desktop games (macOS, Windows) using the cross-platform framework Flutter and implement automated deployment (Steam and Google Cloud Platform).
- Implement Sentry for error monitoring to improve tracking and resolution efficiency.

Senior Front-End Engineer @優訊軟體科技有限公司

2021-05 – 2022-10

Responsibilities

- Migrated some legacy code to TypeScript + React Hooks architecture and reduced dependency library to minimize bundle size.
- Replaced Grunt with Webpack bundle tools.
- Optimized animation performance and reduced page layout shifts.

優像數位科技

2016-05 – 2021-04

Advanced Front-End Engineer @優像數位科技

2019-02 – 2021-04

Responsibilities

- Co-developed PIXNET coupon Hybrid App WebView using React.js and introduced Storybook for UI library development and testing.
- Created advertising slots and replaced Video.js with native JavaScript to reduce bundle size.
- Increased PIXNET recommended visible click-through rate by 3% through A/B testing.
- Replaced PIXNET blog jQuery lazyload with Intersection Observer API to improve image lazy loading.
- Used Rollup bundle tools in replacement of Grunt and ES6 modules to modularize legacy code.

Front-End Engineer @優像數位科技

2016-05 – 2019-01

Responsibilities

- Developed a cross-site real-time notification of the UI component library with JavaScript and Socket.IO to increase member registration and interaction rates.

Web Designer @菲舶數位科技

2013-03 – 2016-01

Responsibilities

- Developed responsive websites and single-page applications with AngularJS.
- Created animations using jQuery, and CSS3.

PROJECT EXPERIENCE

- Developed a Learning Portfolio system using React.js, adopted by over 400 schools nationwide.
- Chrome extension [TOEIC Keyword highlighter](#)
- [Technology sharing](#)
- [Frontend prototype](#)
