## **PROFESSIONAL EXPERIENCE**

**STARNIC. 星醫美學股份有限公司**

**2020/10 – Present**

### **Senior Frontend Developer**

- Introduced Vue.js and Nuxt.js to streamline front-end and back-end collaboration, enhancing team efficiency.
- Refactored an outdated system using Nuxt.js, leveraging SSR for SEO, and increased the Lighthouse SEO score from 48 to 100.
- Built a branded website that attracted 250,000 users within one year, with responsibility for system architecture planning, reusable components development, and project timeline management.

- Collaborated with TPM and UI/UX designers to optimize the store POS system interface and workflow, receiving positive user feedback.
- Designed shared templates using Nuxt3 and Laravel in collaboration with the back-end team, establishing consistent development standards.
- Developed internal Nuxt Modules and distributed them as npm packages via the GitLab Package Registry.

*Reason for Leaving:*

1. *The company's recent operating performance has been poor, and there has been a downsizing.*
2. *Project requirements have become stable, and she would like a larger proportion of her work to involve development.*
