自傳

[About Me]

I'm Chuan-Chih Cheng, a frontend engineer with a passion for coding, self-awareness, and honesty. I believe in tackling programming challenges through transparency and communication.

[Interests]

Beyond coding, I enjoy playing music, reading psychology articles, watching sci-fi and philosophical movies, and hiking. Traveling is also a passion of mine, where I've had the opportunity to improve my English communication and broaden my horizons.

[Work Experience]

With 10 years of web development experience and a focus on frontend for the past 5 years, I'm a skilled JavaScript and TypeScript developer.

[Sum up]

As a frontend engineer, I specialize in creating maintainable, elegant components with a focus on UI/UX/DX.
