

Eva Chu 朱翊華

Software Engineer / Frontend

Taipei, Taiwan

Frontend Engineer with **nearly 5 years** of experience building modern, high-performance web applications using React, TypeScript, and JavaScript.

Skilled in developing responsive, scalable UIs and integrating APIs in fast-paced, agile environments. Experienced in working remotely with cross-functional teams to ship production-ready features, optimize performance, and maintain clean codebases.

Recent work includes Web3-related projects involving crypto wallets, staking dashboards, and token-based interactions. Passionate about crafting intuitive user experiences and exploring emerging technologies, including browser extensions and AI-assisted interfaces.
